**SCHOOL VISION & CONTEXT**

Woodside Learning Center (WLC) and Log Cabin Ranch (LCR) serves the incarcerated youth that are detained in The San Francisco Juvenile Justice Center (Juvenile Hall). It is our belief that we are given an opportunity to intervene in students academic progress and interrupt any patterns of negative behavior in order to reengage students with school. The staff at WLC and LCT are very dedicated to this population with expertise in differentiating instruction to meet the needs of a wide range of learners. Our student population ranges in age from 12-18 years of age and changes daily as students are detained and released. Upon arrival at the facility SF Juvenile Probation assigns youth to a unit (living quarters). Students attend class with their unit and students from different units can not be blended, which creates a class roster that could have students with a wide range of educational needs. This is our greatest challenge as some classes will have students with IEP’s, ELL’s, range of reading levels and varying experiences with school. As a staff we have to be aware that our students are in a state of anxiety as they go through a legal process that could have a wide range of outcomes to their future. Our goal is to provide a setting that will allow students to be available to receive instruction that is free of judgement, predictable, safe while maintaining a level of academic rigor. While attending WLC and LCR, students are exposed to a wide range of programming that includes guest speakers from community based organizations that can provide support when they return to their home school, a culinary garden with an outdoor classroom, and early morning tutoring program in their units. In order to provide transferable skills that will increase success at their next school setting we have developed four instructional standards: 1. All students will have an entry point into a learning experience/lesson. 2. All students will have their assets and experiences elevated and acknowledged. 3. All students will participate actively in learning. 4. All students will develop transferable skills using professional language.

SECTION I: Overview and Key Components

Overview
Vision 2025 stands as an important beacon for all schools in San Francisco Unified School District. It signals an audacious commitment to a uniquely 21st century graduate. The Graduate Profile from Vision 2025 is one embodiment of this commitment, and all schools are called on to consider their contributions to this vision. The Graduate Profile includes:

- Content Knowledge
- Career and Life Skills
- Global, Local, and Digital Identity
- Leadership, Empathy, and Collaboration
- Creativity
- Sense of Purpose and Sense of Self

The Balanced Score Card (BSC) for the 2016-2018 school years is intended to draw all schools into conversations about this vision. This document is designed to build on your plan from last year and makes changes where necessary.

**Transform Learning, Transform Lives** is SFUSD’s newest strategic plan. It articulates a new round of efforts, drawn from the successes and learning of past plans, that advance our district and all its schools towards Vision 2025. This template is intended to support schools to use student outcome data more deeply; to reflect on successes and challenges in implementing SFUSD’s key priorities from the 2016-2017 school year; and to build with increased specificity on each school’s efforts to realize the goals and strategies outlined in the SFUSD 2016-18 Strategic Plan **Transform Learning, Transform Lives**.

The Balanced Score Card serves as the site’s Single Plan for Student Achievement (SPSA) and as a platform for continuous improvement. The design is intended to integrate components of the Strategic Plan (specifically the “Strategies in Action: Schools”), the Local Control Accountability Plan (LCAP) and metrics and targets used as part of the School Quality Improvement Index (SQII).

As you review the 2017-18 Balanced Score Card template, you will find two key changes. The changes are designed to integrate the key components of **Transform Learning, Transform Lives**, the Local Control Accountability Plan (LCAP) and the School Quality Improvement Index (SQII). We believe this redesign will further deepen system-wide coherence and enable communities to have informed conversations about teaching and learning.

<td>SFUSD’s Balanced Score Card process has always included a section dedicated to school-wide analysis, including analysis of available data and identification of student groups. This has not changed. This year, however, the School-Wide Analysis and School Planning sections have been combined into one section. Combining these sections pivots the focus away from identifying and gathering data to analyzing data, complementing it with site-based qualitative and anecdotal variables, and determining the appropriate and deliberate actions, interventions and resources. Sites are called on to consider all students and targeted or focus students, across different tiers. This refashioned approach links the analysis to the targets and identified strategies and actions in one section, irrespective of terminology (Problems of Practice, Critical Areas of Need, etc.)</td>

Key Requirements
In addition to its use as a strategic planning tool, the Balanced Score Card (BSC)/Single Plan for Student Achievement (SPSA) and accompanying school planning process are designed to meet the requirements outlined in California Education Code § 64001.

These requirements include:
- School Site Councils must approve the BSC and categorical budget prior to SFUSD Board of Education approval. In order for this to be valid, the **School Site Council must have parity**.
- Prior to voting on and approving the BSC and budgets, School Site Councils must receive and use feedback from English Learner Advisory Councils (ELACs).
- The BSC must align with the District’s goals for improving student achievement and outcomes and articulate schools’ indicators and assessments for evaluating progress toward these goals. School goals must be based upon an analysis of verifiable state data.
- The plan must be reviewed annually and updated by School Site Councils and approved by SFUSD’s Board of Education whenever there are material changes that affect the academic progress for students.
- Onsite reviews for compliance and/or complaints will continue, and may require revision and resubmission of the school plan and appropriate expenditures, specifically as they relate to categorical programs and services.

BSC Development Checklist
To be sure that all schools satisfy the key requirements for the BSC and school planning process, sites are required to PDF and upload all of the below documents, including the SharePoint BSC template, to SharePoint in the 2016-18 School Site Folder found on the “School Balanced Score Card” page by March 24, 2017.

1. Balanced Score Card/Single Plan for School Achievement
2. School Site Council Roster*, Signatures, Bylaws & Agendas

- SSC Roster that has been verified to have parity, designating either “staff-alternate” or “parent/community-alternate” for any alternate members selected. Names listed should reflect elected members.

- SSC Signatures (Please scan the final two pages of your BSC for signatures, and upload them to the SharePoint site). Note: Signature from the principal and the SSC Chair are required, other members can sign but it is not required.

- SSC Bylaws

- SSC and Community meeting(s) Agenda, Minutes, Sign-In Sheets and handouts that demonstrate feedback and input in the development of the BSC/SPSA and Budget.

3. Budget

- Articulation of activities and strategies that both school site-managed funds (e.g. WSF, SCG, QEIA, TIIG, Title I) and any centrally-managed FTE or resource allocations will support

- All 2017-2018 Title I funds should be accounted for in the BSC

4. Title I Parent Involvement Policy

- All Title I schools have an SSC-approved Parent Involvement Policy (PIP) and Home-School Compact in their upload package
SECTION II: School Data Profile

In previous versions of the BSC, schools were required to transcribe data points from SharePoint into their school’s BSC. This year, the data section has been eliminated and schools are called on to invest their time into the analysis of the data, reflection on current practice, targets, strategies and interventions.

SECTION III: School-Wide Analysis and Plan

With the adoption of and transition to the Local Control Funding Formula, the State has also issued the Local Control Accountability Plan (LCAP) that outlines the state’s priorities. These align well with SFUSD’s articulated performance indicators and the work we’ve done with the more holistic measures and targets in the School Quality Improvement Index. As you use the data above and other sources accessible to you, please consider the following guiding questions:

- What are the implications of the data, based on your analysis?
- Beyond the quantitative data provided, have you considered anecdotal and internally developed measures to create a more robust representation of your school’s context?
- In each area, identify targets/outcomes that measure impact on student achievement.
- What shifts, in strategy, actions or initiatives are necessary to meet those successful targets/outcomes for students?

As we move forward in our work, we will continue to work towards the enactment of Vision 2025, and the more specific strategies articulated in the 2016-2018 Strategic Plan Transform Learning. Transform Lives.

Strategies in Action: Classrooms

Instructional Core / Engaging and Challenging Curriculum

As a school community, please review “Strategies in Action: Classrooms” prior to completing this section. School teams will also find great value by visiting the websites for each subject area described in the section. Data needed to complete this section of the BSC is included in Section II above.

Focal Group: Site leaders identify a focal group who is not yet meeting high expectations on outcome measures (such as academic achievement, social-emotional learning, etc.). Site leadership teams set specific goals for a focal group and measure their progress toward these desired outcomes on a daily, weekly and monthly basis.

Strategies in Action: Schools

In Transform Learning, Transform Lives, the “Strategies in Action: Schools” section describes the actions of effective schools. The section is organized in keeping with a framework created by researcher Anthony Bryk, which describes five essential supports found in effective schools: (1) leadership, (2) instructional guidance, (3) professional development, (4) student-centered learning environment, and (5) parent-school-community ties.

School teams are encouraged to refer to “Strategies in Action: Schools” as you consider plans for the coming school year.

Leadership, Instructional Guidance & Professional Development

Schools with coherent instructional guidance can articulate the what and how their site’s instructional program. Student tasks are foundational and assessment plays an integral role in student learning. Teachers are clear as to the steps they will take to differentiate instruction and site leaders create the appropriate conditions to ensure all students reach mastery. As you reflect on your site’s current context, what steps, from a leadership perspective, do you need to take to deepen your site’s coherence and mastery of the vision. How will you resource these steps? (consider: IRFs, coaching, site based instructional rounds, data-driven decision making, lesson design, standards-based grading, district sponsored professional development, teacher collaboration)

How will you structure site-based and district professional development/learning?

The Court Schools have divided all faculty into an Instructional Leadership Team and a Community Outreach Team. The ILT is focusing on our four Instructional Standard, including defining look fors and planning teacher PD. Our Community Team is focusing on outreaching to parents and other stakeholders (eg probation, court) to create awareness among the many members of the student’s support team of their ILP and their progress toward completing it. There will be monthly faculty professional development sessions to develop teacher knowledge and instructional delivery to improve and enhance the successful student transition back to their home school or alternative school.

Student-Centered Learning Climate

A school environment that is safe and orderly communicates an expectation that all students will achieve social emotional and academic success. In keeping with a Response to Instruction and Intervention (RTI) model, the school maintains a safe and supportive school environment where all students benefit from multiple tiers of support including research-based academic interventions and Positive Behavioral Interventions and Supports (PBIS).
As you complete the table below, consider what shifts would be necessary to create a positive school and classroom climate in which all students are in classrooms, supported, learning and engaged, in the least restrictive environment?

Consider the following items as they relate to each category:

**Students with Disabilities/ Promotion of Inclusive Practices:** percentage of students in Special Education schoolwide (identified internally) and number of referrals to Special Education (total & for subgroups-AA,EL). Your community is called upon to consider SFUSD’s commitment to full inclusion and increased expectations for students with disabilities.

**Student Engagement/Attendance:** school attendance rates, chronic absenteeism rates

**School Climate:** suspensions, discipline referrals, middle school and high school dropout rates, high school graduation rates and any indicators from student surveys

**Parent-School Communities Ties**

Families are the first and most influential teachers of their children. Respecting and welcoming all families into the school community to deepen relationships and engage them will support student achievement and school improvement. Additionally, a community school approach organizes and maximizes the resources of your school and community-based organization partnerships to support student success. The intent of a community school approach is to intentionally support and align these valuable resources around your school’s key strategies, to ensure coherence within your school community.

Reflecting on quantitative and qualitative data (e.g. site-developed measures, survey questions), identify specific school strategies to promote parent input and participation in alignment with **SFUSD’s Family Engagement Standards**.

**Central Supports & Resources**

In addition to the resources included in your site budget, you were also provided a list of the centrally funded, site-based resources that your school will receive. Please identify each support, the intended role as prescribed by the Central Office and two to three high leverage strategies that will be accomplished because of these supports and resources here:

**NOTE:** If the district provides .75 and you supplement .25 for a full FTE of 1.0, below you would enter ".75"

SECTION V: Recommendations and Assurances

Please print these final two pages of your BSC/SPSA. Be sure that the principal has reviewed, checked, and initialed each assurance and that the principal and SSC president have signed the assurances page, and that all SSC members, along with their role & title, are listed in the roster.

The School Site Council has voted on this school plan and its related expenditures and passes it on to the district governing board for approval, assuring the board of the following:

- The SSC is correctly constituted, and was formed in accordance with district governing board policy and state law.

- The SSC reviewed its responsibilities under state law and district governing board policies, including those board policies relating to material changes in the school plan requiring board approval.

- The SSC sought and considered all recommendations from the following groups or committees before adopting this plan:
  - English Learner Advisory Committee (ELAC)
  - Community Advisory Committee for Special Education Programs
  - Other (list)

- The SSC reviewed the content requirements for school plans of programs included in this Balanced Scorecard/Single Plan for Student Achievement and believes all such content requirements have been met, including those found in district governing board policies, SFUSD’s strategic plan, and in the Local Improvement Plan.

- This school plan is based upon a thorough analysis of student academic performance. The actions proposed herein form a sound, comprehensive, coordinated plan to reach stated school goals to improve student academic performance.

- The school held two (2) community meetings prior to the completion of the school site plan.
  1. One meeting to gather input from the school community including all advisory committees.
  2. One meeting to present plan upon its completion before March 24, 2017.

- The SSC reviewed the impact of the school’s categorical programs and made alterations to these investments on the basis of student achievement data. This review was conducted on:

- For Title I School-Wide Program Schools ONLY: Based on our comprehensive review of school data and program goals, our SSC elects to have our site continue as School-Wide Program.

- Our site has a process and budget for replacing lost or damaged textbooks as well as a process for managing textbooks to ensure that each student has standards-aligned textbooks or other required instructional materials to use in class or to use at home in order to complete required homework assignments.

- Our site uses an IEP Master Calendar to ensure compliance with Special Education timelines.
