

## Base Sink Cabinet with Sink

Illusions Mobile Case Goods / Base Units

### Product Summary

The Fleetwood Illusions line of mobile cabinetry gives you the total flexibility that is valued by educators, with the built-in look that architects want. Illusions cabinets are built on concealed casters. They roll into place and are locked together with our patented locking system. When a room needs to be reconfigured for a different use, Illusions cabinets simply unlock from each other and roll easily to a different area of the room, or down the hall to a different room. Have a leak in the wall behind the cabinets? Illusions cabinets can be easily moved out of the way for repairs, and then moved back into place with no expense rebuilding cabinets.

### Product Details

- › Designer look, more flexibility
- › High quality panel-on-panel all laminate construction
- › Durable HPL tops
- › Available with or without backsplash
- › Fully assembled at the factory - no on site assembly required
- › Patented locking mechanism joins cabinet sections together
