Department/School: Payroll Operations Department

Why are you nominating this team? Payroll Operations is a department that always gives more than 100% even in a fire. When we had the fire at 135 Van Ness, payroll was done on time and we never missed a deadline.

What are some of the positive qualities that distinguish this team's work? Customer Service, long hours of service, efficiency.

Please give us a specific example of something that this team did/does that you would like to recognize: Biweekly payroll was produced the same week as the fire with a very small team working in the most horrible conditions.

Is there anything else you would like to tell us about why you think this team should be recognized?
