

Dear SFUSD Community:

The San Francisco Unified School District (SFUSD) has a policy in place that explicitly prohibits gender-based discrimination, a protection that extends to everyone, including transgender and gender expansive students.

We are proud that we were the first school district in the country to pass a policy extending safeguards to our transgender student body. We will continue to honor those policies and ensure that transgender and gender nonconforming students in the SFUSD will remain protected from discrimination, bullying and harassment.

All students deserve to learn in an atmosphere that is free of fear and discrimination. We welcome the entire student, which includes race, class, culture, gender, gender identity, sexual orientation and ability status, all of which adds to the rich diversity of our school communities.

Respectfully,

Shamann Walton, SF Board of Education President
Myong Leigh, Interim Superintendent
