SFUSD Math Core Curriculum 2017–2018 Printing Job

This document describes a printing job for which we are seeking competitive bids.

General Description

SFUSD teachers have developed a preK–11 Math Curriculum that aligns with the new Common Core State Standards for Mathematics. This curriculum is entering its fourth year of revision and implementation.

This curriculum is being distributed to all teachers in both electronic and printed form. The print job described below consists of three phases:

1. Analyzing the data
2. Preparing and printing the materials
3. Delivery of the materials

These phases are described in more detail below, followed by tables of estimates of the numbers for the job.

Detailed Description of Each Phase

1) Analyzing the data

For the purposes of this bid, vendor shall use data from the following spreadsheets:

School Enrollment Projections:

- *2017-18 Elementary Enrollment Projection*
- *2017-18 Elementary Summary Projection*
- *2017-18 Middle School Math Enrollment Projection*
- *2017-18 Middle School Summary Projection*
- *2017-18 High School Math Enrollment Projection*
- *2017-18 High School Summary Projection*

Unit Page Estimates:

- *2017-18 Projected Units - Pages and Consumable Numbers*

Vendor will receive final spreadsheets in early June with updated counts.

2) Preparing and printing the materials

Vendor shall be responsible for ordering paper, preparing the artwork (including proofing materials for symbol consistency etc.), planning the sequence of printing and assembly, and planning for delivery. Each of these must be done in close communication with the Math Department, and may involve last-minute changes.

Preparation of artwork

Successful completion of this job requires close attention to the quality of the artwork. All artwork must be coded in a way that allows for correct sequencing. Orientation of pages must be

correct. PDFs will arrive paginated. Vendor must determine how to organize them based on data provided. Printed material must remain true to the original sizing—pages should not be shrunk or enlarged.

Printing and assembly of materials
