Welcome to our 2017-2018 School Year Public School Enrollment Fair!

Take a look at all the available school options. We offer a wide variety of high quality school programs. While every school is responsible for teaching our children using the same high academic standards, each school has unique features and services. Explore your school options to find out which schools will best meet your child’s needs.

Attendance Area Elementary Schools

Attendance areas are geographic borders drawn around most elementary schools throughout the district. We created attendance areas so there can be a system of helping you get placement in your elementary attendance area school if you wish. You are not required to request your elementary attendance area school, nor can you be guaranteed a placement at your elementary attendance area school.

City-Wide Elementary Schools and Programs

City-wide means there is no attendance area, and as a result city-wide schools and programs do not provide a tie-breaker for students who live near the school. K-8 schools (schools serving grades K to 8), language immersion schools, newcomer schools, and the SF Public Montessori School are examples of city-wide schools. City-wide programs are available at a limited number of schools; they are listed as an option on the back of the application form and they have a separate enrollment capacity. For example, the Chinese Immersion Pathway at West Portal is a city-wide program. Although West Portal elementary school has an attendance area, there is no attendance area tie-breaker for students who live in the attendance area and request the city-wide Chinese Immersion pathway.
