The event gives students a workplace environment to learn their personal style and increase job readiness skills. The menu for this dinner includes Pasta Al Brodo with Roasted Tomatoes, Carrots & Greens Ribbon Salad with House Grown Sprouts, and a surprise dessert.

**Local architects, construction workers** and others are joining students from 24 public elementary schools for the **largest sand castle competition in Northern California**. This year, what they build will be based on the theme “Masterpieces in Sand.” Teams can select a work of art from any period in history or art form – from cave paintings to Greek tragedies to break dancing – as inspiration for their sand sculpture. This friendly competition includes prizes, so teams are secretive about the masterpieces they have planned until the “castle” emerges. The annual event is a fundraiser for Leap, an organization that provides arts education programs in SFUSD schools.
