

Telling the Story Behind the Numbers: Making Sense of District Data

AGENDA

Wednesday, January 27, 2016 6:30 – 8:00pm
555 Franklin St., San Francisco, CA 94102

Objectives:

- Review district-level data identified in the SFUSD Local Control and Accountability Plan
- Provide an opportunity for participants to reflect on how data informs their school-site planning and budget development process
- Foster two-way communication and encourage a mutual exchange of information, ideas and perspectives.

| TIME | ITEM |

- School Climate / Addressing Disproportionality
- Family Engagement

Discussion questions in table conversations:

1. We organized this event to look at district-level data. School sites also look at data about their own students, to help inform their school-site plans and budgets. How have you looked at data at your school?
2. How are you seeing the strategies and/or services at your school, like those described tonight?
