

**Coordination and Implementation of Student Support Services
Middle School SAP Workshop
Saturday, February 10, 2001**

Goal: To implement a coordinated service system to assess students' needs and identify, implement, sustain, evaluate, and refine programs to meet those needs.

Objectives:

- Increase understanding of intervention and prevention programs and strategies which involve students, parents, and community members..
- Identify ways to increase and improve communication with parents regarding intervention and prevention programs.
- Increase understanding of ways to increase staff awareness of the referral process, case preparation, SAP meeting structure, SSTs, resource coordination, follow-through on recommendations, and feedback to the referral source.
- Identify next steps to improve the coordinated service system at school sites.
- Increase awareness of the student transitions pilot program.

AGENDA
