The School Accountability Report Card (SARC) is required by law to be published annually, by Feb 1st each year. It contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF), all local educational agencies (LEAs) are required to prepare a Local Control Accountability Plan (LCAP) which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fg/aa/lc/>.
- For more information about the school, parents and community members should contact the school principal or district office.

DataQuest is an online data tool located at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g. test data, enrollment, graduates, dropouts, course enrollments, staffing and data regarding English learners).

Internet access is available at public libraries and other locations that are publicly accessible.

## **Quality, Currency, and Availability of Textbooks and Instructional Materials**

### **For High Schools (grades 9-12)**

The San Francisco Unified School District adopts instructional materials following the cycle of state frameworks and standards, and provides sufficient textbooks for all students to use in class and to take home in the core curriculum areas of reading/language arts, mathematics, science, and history/social studies. Class sets of health instructional materials were provided for high school health teachers. In addition, other Board-adopted core curriculum materials were provided to remedy all insufficiencies identified through a survey and other activities at the annual Instructional Materials Hearing at the October 29, 2019 meeting of the Board of Education. All adopted high school instructional materials have been evaluated and determined locally to meet state standards for grades 9-12. Appropriate science laboratory equipment is available for all laboratory science courses.

### **For Elementary and Middle Schools (grades K-8)**

The San Francisco Unified School District adopts instructional materials following the cycle of state frameworks and standards, and adopts K-8 materials from the list of standards-aligned materials that have been adopted by the State Board of Education. The district provides sufficient textbooks for all students to use in class and to take home in the core curriculum areas of reading/language arts, mathematics, science, and history/social studies. For 2018-2019, instructional materials were provided for all students in grades K-8. Replacements were provided for core curriculum areas as identified through a survey and other activities preceding the annual Instructional Materials Hearing at the October 29, 2019 meeting of the Board of Education.

## B. Pupil Outcomes

### **State Priority: Pupil Achievement**

The SARC provides the following information relevant to the Pupil Achievement State Priority (Priority 4):

- Statewide assessments (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. The CAAs have replaced the California Alternate Performance Assessment [CAPA] for ELA and mathematics, which were eliminated in 2015. Only eligible students may participate in the administration of the CAAs. CAA items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with significant cognitive disabilities); and
- The percentage of pupils who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

### **California Assessment of Student Performance and Progress Results for All Students**

Subject	Percent of Students Meeting or Exceeding State Standards					
	School		District		State	
	2017-18	2018-19	2017-18	2018-19	2017-18	2018-19

Mathematics (grades 3-8 and 11)	57	55	50	49	38	39

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Double dashes (--) appear in the table when the number of students that did not receive a score is 10 or less, either because the number of students is too small for statistical accuracy or to protect student privacy.

The number of students tested includes students that did not receive a score; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using students with scores.

## **Career Technical Education Programs**

The section provides information about the Career Technical Education (CTE) programs.

Career Technical Education at SFUSD provides opportunities for high school students to explore and gain experience in high-wage high-demand careers, while preparing them for post-secondary education, training or entry into the workforce. CTE Pathways offer students a 2-3 year course sequence focused on one industry sector. The CTE curriculum is centered on industry-standard project-based learning that develops student’s professionalism and industry-specific skillset. Teachers work with industry advisory boards and post-secondary partners to embed work-based learning into a curriculum that aligns to college and career outcomes.

SFUSD’s model includes rigorous academics, integrated technology, work-based learning and comprehensive support services. This provides avenues for students to draw rich, real-world connections across content areas and see the relevance in their day-to-day learning.

We continue to increase the capacity of CTE teachers, counselors and administration, along with local community-based organizations to ensure that non-traditional populations have full access to the Pathways and are set up for success. Specific attention is paid during the recruitment process to support enrollment of populations underrepresented in particular career sectors.

Students enrolled in CTE courses can earn college credit, obtain industry certification(s), participate in paid summer fellowships and build their professional network. Through standards-based curriculum, career readiness activities and supportive cohorts, CTE students are more likely to engage in the school community, persist to graduation and obtain a postsecondary credential, degree or apprenticeship.

The CTE Advisory Committee is chaired by Gary Freund, representing both Cal State East Bay University and the Hospitality/Tourism Advisory Board. The chairs of each of the 7 industry-specific advisory boards serve in a representative capacity on the CTE Advisory Committee.

Parent and community input is actively sought in the decision making process. The PTSA monthly family engagement nights include presentations on topics relevant to the high school experience. The Alumni association supports school activities and meets with the Principal on a regular basis. Open house events are held in the Fall for new and prospective parents. Volunteers from San Francisco school volunteers assist in classrooms.

If you are interested in parental involvement opportunities, please contact the principal at the school:
